This report documents that we are providing services to 18 cases the board should be supporting (15 pharmacists and 3 registered technicians). We are three cases over our allotted capacity. At both the November and December public meetings of the Board we requested a conference to discuss this inequity and to negotiate a contract amendment that would increase the budget accordingly. As of Friday, January 16, 2009 we have not been informed of any attempt to arrange this meeting.
